January 15, 2013

Dear Mayor Tabori, Mayor Fellows, and Mayor Archer,

The American Center for Physics (ACP) has just begun a detailed study of the possible impact of the CSX crossing that has been proposed by the Cafritz project to cross our property. The results of this investigation will take several months or longer. Until our independent analysis is complete, the ACP Board will not make a decision on this issue.

The ACP Board is angry that a letter was provided at the Monday, January 14<sup>th</sup>, meeting of the University Park Town Council, which erroneously appeared to present ACP's support for having a roadway across our property. That letter was never reviewed or authorized by the ACP Board.

Thank you for your attention to these matters.

Sincerely yours,

Beth A. Cunningham  
President, American Center for Physics
